

EAST CENTRAL RAILWAY  
SIGNAL & TELECOM DEPARTMENT

129

No. ECR/S&T/S/Policy/101/368A

Hajipur, Date-03/06/2008

Sr.DSTE-DNR/DHN/MGS/SEE/SPJ

Sub: Centralised indenting of vital/High value non-stock S&T store items.

\*\*\*\*\*

In order to speed up procurement process for vital and high value non stock items for maintenance requirements under revenue budget and to achieve economy of scale, it has been decided by competent authority that non-stock indent for items such as signaling/telecom cables, IPS and its parts, batteries, LED Signals, relays, modems etc will be processed form HQ itself based on the requirements taken/worked out from divisions. Divisions will continue to procure other small value/ non-vital stores as per existing practice.

In order to implement above, approximately 70% of revenue budget against PU 28 will be retained in HQ and remaining 30% of the budget will be allocated to divisions. Divisions requirements for HQ generated indents may be sent latest by 15<sup>th</sup> June, so that vetted indents for these items can be sent to COS/ECR by July'08.
