Sub : Procurement of high value signaling items through works contract/Stores..

GM has agreed with proposal for procurement of high value signaling items like QN1/QNA1 relays, data logger, axle counter, BPAC panel and UFSBI equipment through stores and in case above items to be included in works Contract, approval may be given by CAO/CON.

2. However, while giving dispensation following may be ensured :

- i) Cost difference between Stores and Works Contact should be taken into account.
- ii) It should not circumvent notified regime of inspection and if RDSO inspection is stipulated for Stores the same should be included for works contract.
- iii) The payment of items inspected by RDSO should be done only after inspection certificate by RDSO is received.
- iv) Wherever, inspection is not being done by RDSO, third party inspections by RITES or other organizations may be ensured.
