Sub: Maintenance of signaling equipments at divisional level.

The matter regarding maintenance of modern signaling equipments like IPS, Data loggers, Axle counters, USFBI etc. has been examined at HQ.

Since all the maintenance activities are directly related to the concerned divisions who own and upkeep the equipments. It has been decided that the maintenance issues are to be dealt and managed at the divisional level only to have their better and effective control including the contract management, if any.

You are advised to take necessary action accordingly.

This issues with the approval of CSTE/ECR/HJP.

(B. R. Viplavi)
