

EAST CENTRAL RAILWAY

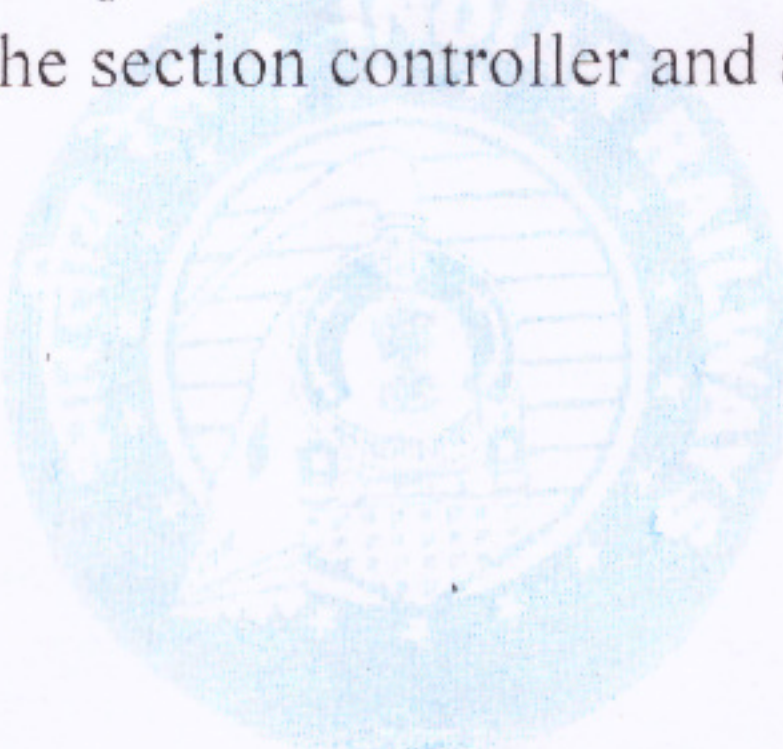

Office of the
Principal Chief Operations Manager
Hajipur.

No.ECR/Optg.Safety /Spl.Inst./74/505

Dated- 30.01.2020

Sub: Testing of emergency Crossover at station.

All the Emergency Crossovers at a station should be tested daily by the Station Master to ensure proper functioning of the crossover. The Station Master will set the route of the Crossovers provided at their Station on daily basis at the convenient time. While exercising this option a private number with the section controller on duty shall be exchanged separately for setting and releasing the Crossover point/points. A record to this effect shall be maintained in a separate register with the section controller and at stations.
