

RED BULLETIN

No. ECR/Safety/Red Bulletin – MAY, 23-24

Date: 16.06.2023

(1) Major irregularities noticed during inspections: -

(A) At Gaya in DDU division, during Footplate by Tr. No. 12365, it was noticed that board where Loco Pilot is required to stop for “Calling On” signal was erected just before (even less than 01 Meter) from the foot of concerned signal, which is very difficult for LP to practice. It should be checked & arrangement to be made to shift at suitable distance from the Home signal.

(B) At Motipur station in SPJ division, no points man was available in both day & night shift. Huge vacancy of points man in the section should be filled up on priority, being safety-category cadre.

(C) In SEE division, rail pieces & sleepers were found scattered near track in SEE- MFP- SPJ section, especially at RD, NRPA & KHI station yards. These should be collected & to be stacked properly to avoid untoward incidence.

(D) At KTI station in SPJ division, private no. exchanged for Train no. 12212 DN with PPRH station was cross- checked and found not matched. Care should be taken during entering private no.in train signal register.
