Sub:- RB drive no 12 (FY 2025-26) availability and upkeep of completion interlocking plans at relay rooms.

Ref: RB letter no. 2025/संरक्षा-1/3/9 dated 28.08.2025.

With reference to above RB drive arrangement at relay rooms to be made to keep SIP, RCC, application logic circuit, VDU/PFD & Interface circuit of EI/MSDAC in relay room in a cabinet whereas cable route plan, cable core plan, location details and track bonding plan/DP plan should be kept in maintenance room in a cabinet. Until the cabinet is arranged these documents to be kept on the table for use by divisional staff to attend the failures.

The record of all above mentioned drawings, sent to SSE (Incharge) of the section for referring in his office and providing at station (Relay room & maintenance room), should also be kept in divisional drawing office in a well-maintained register. Similar register to be maintained at HQ/CN/Works drawing office for recording details of all such drawings handed over to HQ/division after approval of completion drawings pertaining to their unit.

Format for maintaining a register at respective CN/Works units and at divisions is enclosed. HQ to maintain a register for drawings pertaining to HQ approval.
