S&T Policy No.- 10/2025

Sub: - Procurement Policy for Block Proving Axle Counter (BPAC) for single line/double line (Item ID: 3100006 , BPAC).

Ref : - ECR-HQ0SnT (STOR)/15/2020-O/o Dy. CSTE/HQ/ECR (Computer no.-19565).

As there are three different sub item codes available in RDSO vendors for Block Proving Axle Counter (BPAC) (Item ID: 3100006, BPAC).

In IREPS, procurement for only one sub-ID is possible as of now. Hence, to give fair chance to all OEMs either indent will have to be given for any one of the three technologies meeting RDSO Specification or in the indent quantity for all three technologies will have to be indicated. It has been decided that Block Proving Axle Counter (BPAC) for single line/double line can also be procured through works contract.

This has approval of PCSTE/ECR.
