This completes the employees' part of submitting an application.

All the applications submitted by the employees will now be seen by the custodian of the unit as was set by the GZA during notification issue.

3)Processing of Application

The process of applications is done in two stages. One at the Unit level and secondly at the HQ level.

The Unit custodians defined by the GZA would be able to view and scrutinize the applications. He can send the application to appropriate authority for scrutiny to concerned section. Once Scrutiny is completed by unit , any gazetted officer can send the application to HQ.

The HQ recipient or the GZV then receives the applications and process for re scrutiny (if required) by initiating the workflow.

1)Process at Unit level

All the applications submitted by the employees will be available for scrutiny at the level of unit custodians who have been designated as such by GZA.

Once the unit custodian logs in to HRMS, the following path has to be navigated.

Login → My inbox → Other pending tasks → Group B applications.

Here, the user will be able to act on the application.

For the purpose of ensuring a thoroughness in checking and forwarding the application, two indicative flags have been given.

- Has the file movement started - This flags the movement of application- whether it started or not.
- Has Chief OS remarked - This flag ensures that the application has been scrutinized by a senior official from personnel department/Concerned person.

At this stage, after receiving the application, the custodian can forward the application to anyone similar to a workflow after adding the remarks.

Once the application is forwarded, application will be available to recipient in his inbox for processing.

All the users who receive the application for processing will be able to

- View the application in their inbox.
- Edit the application and offer remarks and
- Mark the eligibility/non eligibility of the application and

d)forward the application to another user.

Processing of applications (whenever eligibility is ascertained) has been authenticated with a transaction password to increase the security. The Transaction OTP needs to be entered on such occasion. Once section remarks on eligibility and send the application to concerned APO for final Decision, APO can agree / disagree and send the application to HQ or can return the application for reexamination or clarification. Once he finalizes the eligibility and send the application to HQ, workflow ends at Unit level.

The workflow ends only when a Gaz officer marks the eligibility of the application and forwards it to HQ.

With this the role of unit custodians end. The applications will now be available for process in HQ with GZV login.

2)Process at HQ level

The process of application scrutiny at HQ level is done by user role GZV as designated by GZA at the time of notification creation.

GZV logs in → Establishment Functions → Group B applications → Group B application scrutiny.

He will then have to select the notification to see and process the applications received in HQ. He can wait for last date to process all application against a notification for processing them in a batch (in a single workflow). Or he can process in multiple batches too to save time.

The screenshot displays the 'Group B Applications Scrutiny' interface. At the top, a notification is selected: '1612 - APO (30%)'. Below this, a table titled 'Notification Details' shows the notification ID (27), post (APO), type (30%), and notifying railway (SOUTH WESTERN RAILWAY). A 'View Notification' link is provided. The main section is titled 'Applicant Details' and contains a table with columns: Tick, Sr No, Application No, Name / HRMS Id, Designation, Department / Sub Department, Cadre Code, Cadre Id, Cadre Level Id, APO Eligibility, original Application, Chief OS Edited Application, and Eligibility. One applicant is listed: AKHILA BANU SHAIKH / RBIXFK, with a blue checkmark in the 'Tick' column. An 'Initiate Approval Process' button is located below the table. The footer includes copyright information and a note about the application's compatibility with Google Chrome 70.0 and above.

As can be seen from above, the user GZV will now be able to see individual applications forwarded to him by the units. He will also see the original application and the subsequent edited applications of the employee as done by the unit during scrutiny. He can then initiate a workflow process for approval by selecting the required application/s and making a recommendation of eligibility or non eligibility . Once the GZV sends the proposal, this will be available to recipient in his inbox under promotions tab.

The proposal can only be approved by a Gaz officer in HQ.

Reports

Two types of reports have been provided for tracking the status of applications.

1)Report - Status of Applications Pending at HQ - This report is visible to both GZA and GZV roles.

This can be accessed at Login → Establishment Functions → UDIP →Group B applications.

This report gives details of all the applications which were received at HQ and the status of applications where they are pending.

2)Track Group B Notification status/Change Custodian - This report is visible to GZV role.

This can be accessed at Login → Establishment Functions → UDIP →Group B applications.

This report gives the status of all applications . The workflow remarks of each application can also be seen.

In addition, GZV of HQ will be able to change the custodian for any application as long as the application is not forwarded to HQ. This can be used in situations where the unit custodians are unable to process the applications received by then.
