General Manger (Engg)  
Hajipur

## **PCE's CIRCULAR No- 15/2007/WORKS**

### **Sub-Boundary Wall with Zig Zag Fashion**

Boundary walls are being constructed along the Railway land boundary in colony to prevent encroachments and trespassing as well as around office complex, service buildings and quarters.

Generally these boundary walls are being constructed with Brick Masonry and face of the walls are plain and plastered. But it is very often noticed that plain face of these walls are being misused by the outsiders for pasting posters and painting advertisements, slogans etc. This gives a very ugly look to the face of the wall.

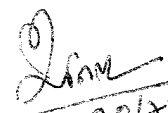

It is therefore decided that henceforth all boundary walls whenever constructed with one brick thick masonry which are likely to be misused in future for pasting posters or painting advertisements, slogans etc will be constructed in Zig Zag fashion. A typical sketch of the boundary wall is attached as Annexure-A.

Enclosure:-One sheet
