East Central Railway

ECR/S&T/Tech Circular/185-A/3763  
13.6.08  
TC

Sub: - Corrigendum & Addendum of Joint Circular No. - 2/2007

Ref: - (i) ECR/S&T/Tech Circular/185, Dated-11.01.2008, Joint Circular No-2/2007  
(ii) Joint Procedure Order No.-1/2007

The above two Joint Circulars are conflicting as regard to periodicity of measurement of implantation of signaling structures. As per JPO No.-1/2007 this period is 06 month whereas as per Joint Circular No.-2/2007 it is 03 months. In above context the para- 9.2 of Joint Circular No.-2/2007 is read as para-9.3 & following new para is added as para-9.2 & 12.0 -

Para-9.2 - "While carrying out tamping operations supervisors in charge of track machine viz. Machine Foreman and the sectional JE/SE (Signal) should ensure no infringement to signals and location boxes due to erroneous slewing of track."

Para-12.0 - This Joint Circular supersedes JPO-1/2007.

  
(J.K. Verma) 3/6/08  
Chief Track Engineer

  
(Arun Kumar) 10/06/08  
Chief Signal Engineer
