

EAST CENTRAL RAILWAY

JOINT CIRCULAR No. 05 /2009

Docket | Monitoring the compliance of the deficiencies in track as per report of joint inspection of Points and Crossings and track circuit by SSE/SE/JE (P.way) and SSE/SE/JE (Signal).

Ref : Joint circular no.2/2007 dated 11.01.2008

1 Vide joint circular under reference detailed guidelines were issued regarding joint inspection of Points & Crossings and track circuit. However, it has been reported that the compliance of deficiencies in the track as per the joint inspection report is unsatisfactory.

2 As such, in order to have proper monitoring following guidelines may be followed with immediate effect.

2.1 Monitoring register for compliance of the deficiencies will be maintained in Divisional S&T control and also Engg control in the following proforma :

Date of inspection	Name of P.way & S&T supervisors carrying out joint inspection.	Station	Point no/Track circuit no.
1	2	3	4

Deficiencies noted track.	Target date for compliance.	Date of review	Status of compliance.
5	6	7	8

2.2 As soon as the joint inspection is done by Supervisors of Engineering and S&T, the deficiencies observed in the track alongwith target dates for attending the same will be conveyed to the Divisional S&T control by SSE/SE/JE(Signal) and Engg control by SSE/SE/JE(P Way) which will be recorded in the monitoring register by Supervisor in-charge of S&T/Engg control.

2.3 The monitoring register will be put up by Sr.DSTE to DRM in the weekly punctuality meeting for review in which the item wise status of compliance will be given by DEN/Sr.DEN concerned to him.

2.4 The intermediate compliance will be recorded in pencil in the relevant column and final compliance by ink.
