

EAST CENTRAL RAILWAY
JOINT PROCEDURE NO. 1/2014

No. ECR/S&T/JPO/185A

Dated 15.01.2014

Sub: Joint Procedure Order for Opening and Maintenance of Sliding Boom at Level Crossing Gates.

1. At those level crossing gates where sliding booms have been provided, training must be given to gateman by sectional TI/PWI who have been briefed/ counseled about knowledge of operation of sliding boom by sectional Signal Inspector as per SWR/GWR. Upon successful training, gateman's acknowledgement should be obtained in 'Assurance Register' that the gateman is fully conversant with relevant rules and regulations and operation of Sliding Boom.
2. Sliding booms must be operated by Gateman once in a week on every Monday with permission of Station Master on duty who will record it in the station diary in red ink.
3. Inspecting Officers/Officials shall make it a point to check the working of sliding booms and test the knowledge of gateman about its working in addition to items being covered in their inspections of manned level crossings.
4. the sectional S&T staff, as per their beats i.e. by SI-once in a month, by ESM/MSM-once in 15 days, shall check the sliding boom in respect to its proper working and its working shall be recorded in the register kept at gate lodge.
