

Track Machine Workshop/Plant DEPOT/DDU

For Maintenance & operation of Track Machines, a workshop is functioning at Plant Depot, DDU in East Central Railway. This Track Machine Workshop is controlled by Dy.CE/TMC/PD/DDU (who is assisted by XEN/TMC/PD/DDU, AEN /TMC /PD/DDU, AEN/TMC/DHN and AEN/TMC/SEE) and headed by CE/TMC/ECR/HJP under administrative control of PCE/ECR. It is mentioned that AEN/TMC/DDU, AEN/TMC/DNR and AEN /TMC / SPJ are vacant. AEN/TMC/SEE is looking after the work of AEN/TMC/SPJ & AEN/TMC/DNR. AEN/TMC/PD/DDU is looking after the work of AEN/TMC/DDU. At Present, there are 63 nos. Track Machines are working over E.C Railway. As per planning Fixed by HQ/Railway Board level, Track Machines are deployed at in different locations of Divisions/Construction units of ECR for Track Maintenance/new line works. Emergency and breakdown requirements of these machines with daily progress// working report are also monitored by Track Machine workshop of Plant Depot/DDU. The operation & maintenance work (like IOH/POH/special maintenance works) of these machines are performed by co-ordination Cell, TMC control room. Shop floor including Machine shop, Welding shop, engine room, Hydraulic room and Electrical section of this workshop. Each section has been manned with experienced as well as senior supervisors of their team.
