

Safety Alert No. 1/2022

Sub:Dashing of motor trolley and Tower wagon in between MGME-NVA stations at KM168/7-9 at 16.20 hrs. on 11.1.2022.

Recently an accident has taken place in CIC section of DHN Division on 11.01.2022 where Tower wagon was granted Block for OHE maintenance between MGME and NVA stations in up line. Block was granted to work and return and duration of block was 14.20 hrs. to 16.20 hrs.. All procedures regarding block granting were complied properly. After completion of work Tower wagon was returning back to MGME station via up line i.e. in the wrong direction. In the mean while one moped trolley with 08 persons entered in MGME-NVA up line without any authority and without intimation to SM/MGME and dashed by Tower wagon at KM 168/9-7 where there is 02 degree curve and visibility ahead is 50-60 meters only in which two employees of engineering department died on the spot and one staff died during treatment at Chandava hospital. Thus three Railway employees lost their lives.

It is therefore instructed to obey GR & SR rules (4.65),(15.25) rigidly while granting block or for motor trolley movement. In the meantime it is also instructed that whenever Tower wagon is returning back in wrong direction, Engg. Control will be informed in written and Tower wagon driver will blow horn frequently along with flasher light lit throughout the period it is moving in wrong direction.

Please treat it urgent and strict compliance to be ensured with immediate effect.

Sr. Divl. Safety Officer
E.C.Rly./DHN
