JPO for Provision/Maintenance of electric/solar supply at Manned LC gates

1. 403 Nos. manned LC gates were electrified with solar panel system by Electrical department and handed over to Engineering department for maintenance but due to lack of technical knowhow with Engineering department, the performance was found unsatisfactory. Therefore, these 403 Nos. LC gates to be handed over back to Electrical department for routine maintenance along with current status of assets.
2. At the time of handing over, 215 Nos. manned LC gates were due for electrification through solar panel and it was decided that the work for provision of solar panels will be done by Engineering department. The present status of these gates shall be furnished by Engineering department to Electrical department for further action by Electrical department.
3. Sr.DEE/G of the divisions will explore the possibility of taking electrical connection from the nearest supply point from DISCOMs, on the LC gates where such arrangements is feasible.
4. As per GM instruction the electric supply at LC gates in electrified section may be taken from Auxiliary traction. LC gates where provision of electricity by DISCOM is not possible are to be electrified through solar panel system by Electrical department and the expenditure to be incurred in provision of electric supply/ solar panel system at manned LC gates should be borne through "**Other Electrical Work**" fund PH-36 or PH-29 wherever fund available. All divisions will prepare the proposals accordingly for inclusion in PH-36 or PH-29 wherever fund available. AMC/ Maintenance cost be charged to revenue under proper demand.
5. Electrical department will maintain the system of lighting at manned LC gates as gateman being a purely safety category staff, they must not be entrusted with other works.
6. The Concerned Junior Engineer/ P. way/ Gatemen will inform to concerned electrical supervisors in case of failure of working solar lights.
7. The Concerned Junior Engineer/ P. way/ Gatemen will verify the work done by AMC agency during schedule maintenance.
